

# TECHNICAL REQUIREMENTS

A black and white photograph of two people wearing trench coats, standing in front of a dark, textured backdrop. They are holding up large sheets of paper, likely architectural plans or blueprints, which they are using to hide their faces. The person on the left is holding a smaller sheet, while the person on the right is holding a larger one. The background is a dark, possibly black, fabric or wall with some faint, circular light patterns.

## SCENIC SPACE

Flat ground of 9 meters wide and 9 meters deep.  
Height of 6.5 meters for aerial structure.  
Exterior and interior. Aerial fixed point 22 KN (if acting indoors).

## TIME

Assembly 1h and 30min. Plus 1h of rest and preparation.  
Dismantling 1h.  
Show 45'.

## FORMATS

Full show 45'. Also short version of 25' and 7' number for galas.

## STAFF

One person from the organization to help us with the assembly of the aerial structure.

## OTHERS

We can provide our own sound system for 1,000 people.  
General lights are needed in case of a night performance. A dressing room with water near the performance site.
